Video footage from 1999-2000 was used to make a video for Comes Around Goes Around from the Destination CD. It was mostly completed back then, but the tools I had to do the job were not as good as I wanted. So, the video was shelved and with so many things going on, I never got back to it. It's still not very good quality because the footage was taken from VHS tape and the tape was not in that good of condition. I remastered the audio for the song and replaced the mono version in the video. Anyway the footage was shot in Marion, Ohio (Club 151 at that time) and Milford, Delaware (a band road trip).

[Comes Around Goes Around - Destination](#)

Video footage from 2001 shot at Merry Melodies in Columbus, Ohio was used for I Don't Feel You Anymore from the Psychosomatic CD. I again, remastered the audio of the song and made the video.

Hope you enjoy it!
